Milics Gábor

TOWARDS SUSTAINABLE AGRICULTURAL AND BIOSYSTEMS ENGINEERING

Edited by:

A. Nyéki, A. J. Kovács, G. Milics

Universitas-Győr Nonprofit Ltd. 2017

CONTENTS

M. NEMÉNYI

Thoughts and questions about the sustainability of agriculture in the modern digital age: theoretical and practical approach. 13

PRECISION AGRICULTURE

K. György Takácsné, I. Takács

What makes the society better if agriculture is precision? – by the thoughts of the 'de-growth' theory 47

I. Husti, M. Daróczy, I. Kovács

Messages from "Industry 4.0" to agriculture 63

J. Nagy, T. Rátonyi, E. Harsányi, S. Ferencsik

Results of precision maize production with strip tillage 79

A. Nyéki, Á. P. Mesterházi, J. Deákvári, K. Szalay,

J. Kalmár, M. Neményi

Determining the correlation between soil structure and spectral characteristics for decision support in precision agriculture 91

S. Nawar, A.M. Mouazen

Comparison between random forest and partial least squares regression of on-line vis-NIR spectroscopy measurements of soil total nitrogen 109

G. Milics, A. J. Kovács, J. Deákvári, K. D. Szalay, A. Pörnecezi, Sz. Fülöp

Advances in Remote Sensing applications in site-specific plant production 131

V. Nagy, T. Orfanus, L. Lichner, P. Surda, G. Milics

Soil moisture distribution mapping in topsoil 153

M. Csiba, I. Virág, M. Lajos

Creating variable rate application maps using yield data and soil parameters 173

Gy. Sitkei, G. Pillinger

Damping capacity and energy loss in tyres due to vertical vibration 181

I. Szabó, M. Hushki, Z. Bártfai, L. Kátai

The change on Operator's focusing scheme inside a multi-tasking off-road vehicle along working hours 191

HORTICULTURE

B. Pályi, M. Lönhárd, Zs. Takács, E. Vígh

Pesticide loss reduction of air-assisted sprayers in vine plantation 209

Z. Láng	
A new shaker head concept for minimizing bark injuries on fruit trees	219
Cs. Farkas, K. Petróczki, L. Fenyvesi	
Effects of repeated mechanical load on selected grape and pome fruits	229
FOOD TECHNOLOGY	
E. Lakatos, M. Neményi, V. Kapcsándi	
Effect of microwave treatment on fermentation process	243
P. Sembery, G. Géczi, P. Korzenszky	
Study of microwave heat treatment in the technology of winemaking	253
G. Keszthelyi-Szabó, S. Beszédes, Sz. Kertész, C. Hodúr	
Biosystem engineering for minimal waste processing	271
A. Véha, B. P. Szabó, E. Gyimes	
Debranning Hungarian Winter Wheat Varieties	289
NATURE PROTECTION	
B. Sinóros-Szabó, B. Sinóros-Szabó (Jr.)	
Innovative system approach to rural development at the Tisza River region	305
A. Anda	
Addition of regional evapotranspiration estimation of Small Lake Balaton wetland: a brief selection of previously published results	319
RENEWABLE ENERGY	
B. Horváth, I. Czupy, A. Horváth, T. Major, K. Szakálosné Mátyás, A. Vágvölgyi	
Mechanization and energy balance of forest biomass production	331
A. Lengyel, N. Csiki, I. Lajtós, A. Szilágyi	
Opportunity of the biomass from wood preparation and utilization	345
I. T. Tolner, B. Ambrus, K. D. Szalay	
Software base system model, ANSYS Fluent of developed bubble column (Air lift) Tubular photobioreactor	361
I. Farkas, I. Seres	
Applications of solar thermal and photovoltaic energy	375
M. A. Al-Neama, I. Farkas	
Design aspects of flat plate solar collectors used for drying applications	391
