### Clinical Commentary Review

Eosinophils: Friends or Foes?

1439

Michael J. Chusid, MD, Milwaukee, Wis

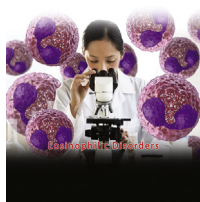

Continuing Medical Education examination: Eosinophils: Friends or Foes?

1445

Continued on page 8A

This month's theme: **Eosinophilic Disorders**

### About the Cover

This issue's theme is Eosinophilic Disorders, and the cover vividly reflects the idea that, in the world of asthma, allergy, and immunology, eosinophils are all around us. And the specimen being evaluated under the microscope for eosinophils could come from blood, bodily secretions, or biopsies from almost any tissue in the body. This theme issue discusses eosinophilic conditions involving a variety of organ systems. The issue begins with an interesting discussion of the role of the eosinophil in both health and disease by Dr Chusid (p. 1439). Drs Khoury and Bochner then provide an extremely practical Chief Complaint article regarding the work up of the patients we all see who are referred for evaluation of "eosinophilia" (p. 1446). Several excellent and comprehensive Clinical Management Reviews follow on the subjects of

eosinophilic pneumonia (Drs Allen and Wert, p. 1455), eosinophilic disease and the skin (Drs Leiferman and Peters, p. 1462), and eosinophilic esophagitis and gastrointestinal diseases (Drs Steinbach, Hernandez, and Dellon, p. 1483).

Finally, a very relevant Grand Rounds Review written by Drs Wu, Hernandez, Jennette, and Falk describes the clinical features of Eosinophilic Granulomatosis and Polyangiitis (p. 1496). We are indebted to Editorial Board member Kevin Kelly for coordinating this superb theme issue so skillfully and conscientiously and for contributing a very insightful and valuable Theme Editorial. This issue also contains 2 Original Articles, a Clinical Communication, and a Difficult Cases (MOC) presentation on the theme of eosinophilic disorders. The editors hope that this theme issue will make our readers feel more comfortable in the world of eosinophils and more competent to diagnose and treat patients who are troubled by them.
