WELCOME MESSAGE FROM CONFERENCE CHAIR

We welcome all respected presenters to the 4th International Conference on Learning Innovation and Quality Education (ICLIQE 2020) in Surakarta, Indonesia. A major goal and feature of it is to bring academic scientists, education researchers, teachers, students together to exchange and share their experiences and research results about most aspects of science and social research, and discuss the practical challenges encountered and the solutions adopted.

ICLIQE 2020 this time is carried out online because during the COVID 19 pandemic that is currently sweeping the world, it requires all of us to keep up with the applicable health protocols. However we still believe that you can still get stimulation and quality information related to educational innovations from keynote speakers and invited guests from several countries.

The program consists of invited sessions and discussions with eminent speakers covering a wide range of topics in science and social research. This rich program provides all attendees with the opportunities to meet and interact with one another. We hope that your experience with ICLIQE 2020 has been useful and long lasting. With your support and participation, this conference will continue its success for a long time.

Finally, we have raised the bar by focusing on better quality articles for acceptance to be published in reputable journals. We do hope that participants would understand that publication is a long and tedious process that involves many rounds of reviews and corrections. For these reasons, we hope that participants could assist by putting in more effort to ensure that articles submitted are original, error-free and fulfill the quality standard imposed. So, help us to help you and the others as well, as a delay in submission by some individuals will affect the others as well.

We would like to thank the leaders of Universitas Sebelas Maret, all committees and reviewers. They have worked very hard on reviewing papers and providing valuable suggestions for authors to improve their work. We would also like to thank the external reviewers, who provided extra assistance in the review process, and the authors who contributed their research to the conference.

We hope that all ICLIQE 2020 participants will have a fun scientific gathering in Surakarta. We look forward to seeing you all next year at this conference.

Happy Conferencing
