6TH INTERNATIONAL CONFERENCE ON
CLOUD COMPUTING AND SERVICES SCIENCE

ROME, ITALY · 23 - 25 APRIL, 2016

Conference Areas

Cloud Computing Fundamentals

Services Science

Cloud Computing Platforms and Applications

Cloud Computing Enabling Technology

Data as a Service

POSITION PAPER SUBMISSION: **JANUARY 5, 2016**

MORE INFORMATION AT: WWW.CLOSER.SCITEVENTS.ORG

The 6th International Conference on Cloud Computing and Services Science, CLOSER 2016, focuses on the emerging area of Cloud Computing, inspired by some latest advances that concern the infrastructure, operations, and available services through the global network.

Further, the conference considers as essential the link to Services Science, acknowledging the service-orientation in most current IT-driven collaborations. The conference is nevertheless not about the union of these two (already broad) fields, but about Cloud Computing where we are also interested in how Services Science can provide theory, methods and techniques to design, analyze, manage, market and study various aspects of Cloud Computing.
